HOUNG WITH A RAKE

Before the time for weeding comes we wish to put is in a few words about the extermination of weeds. It is perfeetly wonderful what a wonderful vari ety of weeds we have to deal with, and how persistent they are They seem to spring up spontaneously But when we know that with such plants as purslane and pigweed, a million of seeds are distributed from a single plant, we do not need to bring in any matter of spontaneity to account for the millions of young plants that come up at a day's For the Boys. Best and notice It is a fact that the mojority Cheapest in Decatur, at of farmors do not know how to munnge weeds successfully, this conclusion comes from acurato observations. As we pass through the country in summer farm that is not over-run with weeds is the exception, and a perfectly BABY

way it to kill them at birth. This is not the legitimate work of the hoe, but a rake The latter implement oun beshoved over the ground and destroy with a single movement five times the weed lite that our be done with a hoe and that with the same expenditure of effort. The ground must be all surred ORBAPER BOOK I HE Ground HUYD DE HI BELLICA of hooing where there are no weeds, but in those phases when the surface is not moved, the weeds are just germinating, and a shove of the rake would exterminate a whole regiment. THE PARIS EXPOSITION.

London News. The Paris exhibition of 1878 wil not only be in a beautiful and commedious building, surrounded by foun-tains and gardens of loveliness yet unknown to the most experienced sightseers. In 1867 folks went to see a new and more splended Paris than was over imagined twenty years before, called forth out of the narrow strests into space and light; the people who go there in 1878 will behold the fairest of the earth finished and dressed as for a bridal. The stately plan of the new Hotel do Ville, now rising fast on the noble site of that destroyed by the Commune, will complete the magnifi cent line of public buildings on the left bank of the Soine. The spacious hospital of the Notel Dicu will be finished in 1878; and the Louvre will stand proudly out from her ruins. The aveane de l'Opera will be opened, and so will the new boulevard St. Germain, yet destined to be one of the busiest thoroughfares of a city now hardly sufficiently impressed with respect for beneficed alergymen highly connected. There is confident talk of of an under-ground railway, which will relieve the streets of their superabundant traffic. Paris is also to be illuminated by central electric lights set up in exalted positions, that the night will be as clear as the day and much merrier, with all

PORTY YEARS BEFORE THE PUBLIC. DR. C. MOLANE'S CELEBRATED

LIVER PILLS. POR THE CORE OF

Hepatitis or Liver Complaint. DYSPERMA AND BICK HRADACHE.

Symptoms of a Diseased Liver. DAIN in the right side, under the edge OPERA of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of thein existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER. DR. C. MOLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine: We would advise all who are afflicted with this disease to give them A FAIR TRIAL. For all Bilious derangements, and as

a simple purgative, they are unequaled. BEWARK OF INITATIONS. The genuine DR. C. MCLANE'S LIVER
